STAINLESS STEEL FURNITURE CARE

CLEANING & MAINTENANCE :

Stainless Steel is suitable for outdoor usage due to its resistant to extreme conditions. However, regular care is required to assure that stainless steel furniture is last longer in a good condition.

DO NOT leave stainless steel furniture where it could be contacted with sea or salt water directly such as on the beach or salt water pool.

Stainless Steel is easy to be cleaned. Wash off all stains with soap and rinse with clean water thoroughly. Dry the furniture completely then apply INOX CARE* to protect and keep the furniture shiny and resist fingerprint stains. Stainless Steel furniture needs to be cleaned at least once a month to help reducing dirt collection. Furniture placed by the seaside needs to be cleaned regularly (at least twice a month) to avoid collection of salt causing the stainless steel dull and corrosive, thus hard to maintain and clean in the long run.

STAINLESS STEEL CLEANING & MAINTENANCE TIPS :

1. Wash the stainless steel parts with soap and water then dry it off with a cloth.
2. Spray INOX CARE* on a dry cloth and wipe over stainless steel surfaces.

Recommendation : Follow this instruction once a month for a normal condition and once a week for furniture placed by the seaside to keep the stainless steel shiny.

CLEANING TIPS FOR BROWN STAINS (CAUSED BY SALT FROM THE SEA) AND PERVASIVE STAINS.

In case of stains which are hard to be removed by soap, it is recommended to:

1. Apply INOX CLEAN* or WENOL*, stainless steel scrubbing wash, with abrasive sponge (such as 3M scotch bright) and scrub the stains until disappeared.
2. Wash out with soap and water and dry with a cloth. By following these, you will renew your stainless steel furniture and make it shiny once again.

Caution :

** DO NOT use any acid, chloride-based cleaners or Sodium hydroxide with stainless steel furniture, for example, the bathroom cleaner.*

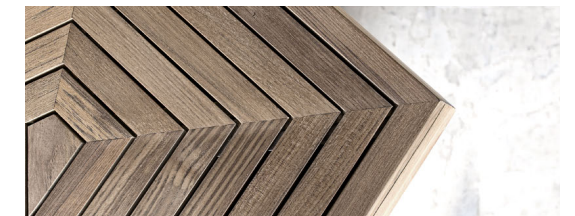

** DO NOT use metal brushes with stainless steel furniture. Only use a nylon material such as 3M scotch bright.*

** Ask kenkoon agent for the supply of INOX Care and Wenol.*

TEAK FURNITURE CARE

CLEANING & MAINTENANCE :

Teak is regarded as one of the world's most precious woods these days. It could effectively resist in extreme environment and climate. With the combination of top-graded materials and sophisticated techniques from experienced carpenters, Teak is transformed to furniture which is very durable especially for outdoor.

STAINS REMOVAL :

Normally, all stains that appear on teak wood will gradually disappear by themselves. For immediate removal, please follow these

CHANGE DUE TO WEATHERING TENDENCY (OUTDOOR USAGE)

Teak Outdoor Furniture will attain a gorgeous silvery-gray patina by approximately 3 months to 1 year depending on the amount of sunlight and rain exposure.

During weathering, a slight lifting of the grain may appear on the tops of furniture arms and legs which is normal for outdoor wood furniture to have expanding and contracting conditions and will not effect or minimize the durability / quality of the furniture. Regular cleaning should be done by washing with soft brush or sponge. Another care option is to use teak oil which keeps a color of the woods last longer.

SUNBRELLA FABRIC CARE

CLEANING & MAINTENANCE

One of the best ways to keep Sunbrella Fabric (cushion or parasol fabric) beautiful and long-lasting is to spray and wash them with clean water once a month. This tip helps avoiding dirt penetrated deeply, thus easier to be cleaned in the future. Importantly, Sunbrella is a type of fabric that needs to be cleaned regularly for its durability and beauty.

CLEANING TIPS

1. Brush off dust and dirt.
2. Wash afterwards with clean water.
3. Prepare a cleaning mixture of water and mild soap (do not use detergent).
4. Apply the cleaning mixture on a non-abrasive brush and wipe it all over the fabric.
5. Leave it for a while until the fabrics fully soaked with soap.
6. Rinse thoroughly with clean water.
7. Leave the fabric dry under shade and never apply heat to dry Sunbrella fabrics.

HOW TO PREPARE FOR SUNBRELLA'S SPECIAL CLEANER

1. Mix 114 g (4 Oz) of detergent with chlorine mixture.
2. With 56 g (2 Oz) of soap.
3. And 4.5 L (1 Gallon) of water.
4. Brush with a non-abrasive brush.
5. Leave it in the cleaner for 20 minutes thus the fabric is soaked with the special cleaner.
6. Rinse thoroughly with clean water.
7. Leave it dry under shade. If the stain still persists, repeat the previous steps.
8. Dry-cleaning is not recommended for Sunbrella fabric

FABRIC CUSHION CARE

CLEANING & MAINTENANCE

1. Do not take the fabric off the cushion and do not wash in a washing machine.
2. Simply wash with soap. Do not use detergent.

3. Leave the fabric dry under shade and do not use heat for drying.
4. Do not dry-clean the Sunbrella fabric or put it in a drying machine.

Sunbrella fabrics will not support the growth of mildew, but dirt on the fabric will promote mildew growth. Therefore, regular cleaning is needed. Cleaning is required less frequently in a dry environment. Also, if stubborn stain persists, use detergent or soap with chlorine to bleach the dirty spot.

TEXTILENE FABRIC & BRAIDED ROPE CARE

CLEANING & MAINTENANCE

Stains on Textilene or Batylite fabric and Braided rope mostly come from dust and dirt, carried by wind or rain, or other common stains such as spilling of food and drink.

CLEANING TIPS

1. Regularly clean with a vacuum cleaner or a non-abrasive brush and never use a metal brush.
2. Scrub with a soft brush or sponge and wash away with soap.
3. Rinse thoroughly with clean water.
4. Leave it dry completely outdoor.

** DO NOT use strong detergent or sand paper for cleaning*

RENEW TEAK FURNITURE WITH TEAK OIL

1. Put a sticky tape around the areas where do not require the teak oil, for example, stainless steel part. Then, sandbrush wooden parts thoroughly with a sandpaper.

2. Apply teak oil on a cloth or a soft brush, then wipe all over the furniture to create the full, rich surface sheen.

3. Wipe off the left over teak oil with a cloth.

4. Repeat No.2 and No.3 twice and sand brush the wooden surface again with a sandpaper.

5. Apply teak oil for last time. Wipe off with a dry and clean cloth. Leave it dry for 15-20 mins.

HAPPINESS
IS NOT A MATTER OF
INTENSITY
BUT OF BALANCE,
ORDER, RHYTHM AND
HARMONY.

THOMAS MERTON

COMPANY PROFILE

ESTABLISHMENT

Kenkoon first introduced outdoor products to the market during 1990-2000. With the technological know-how from Sweden, Kenkoon designed and developed marine accessories and outdoor furniture, made of teakwood, mainly for the Scandinavian market.

JOIN MODERN ERA

Things really evolved when Kenkoon designed and introduced our first collection of modern-style outdoor furniture: 'TAJI Collection' to both local and foreign markets in 1998. With the combination of two different materials, TAJI Collection became widely recognized because of its temperature resistance quality from teakwood, plus simplicity and stiffness of structure from stainless steel. Thereupon marked the turn of notoriety from 'tropical' to 'modern architectural' style.

KENKOOON'S PHILOSOPHY

We believe that living persons can live in harmony with their dreams and imaginations, also with people around them—friends and families. Those dreams and imaginations may derive from perceptions, feelings, and experiences you may have with nature, air, sunray, or the time that made you feel like stopping all the clocks to tick.

So live a long life, make yourself beautiful, and make others envious of how you live a life full with such happiness and joy of your own style. "Kenkoon, we create the tool to make people envy you"

WORLDWIDE RECOGNITION

Inspired by the interior furniture, various collections of exterior furniture (e.g. BEO Collection /TT Collection, LATITUDE Collection, etc.) have then been introduced to the markets in Asia, Australia, Europe and North America. Since then, each and every bit of Kenkoon design has conveyed our enduring belief that "there is no such thing as a boundary between indoor and outdoor".

Today, Kenkoon products, designed upon unique and sophisticated taste beyond conventional outdoor furniture, have been widely recognized among upscale resorts and five-star hotels across the country and around the world.

DESIGNER PROFILE

MARK, METCHANUN SUENSILPONG
HEAD OF DESIGN DIVISION

Who would believe that those chairs right outside of London lovely garden, those loungers along the Caribbean sea, or those lawn chairs in many mansions throughout Asia and the rest of the world are the work of Thai designers.

Mark, Metchanun SuenSilpong, has acquired his taste and accumulated design concepts from working with local and foreign clients, which subsequently resulted in the creation of Kenkoon furniture line. Taji is Mark's first design for Kenkoon. He recalled that Taji is an innovative combination of solid wood and stainless steel, the idea which was inspired by Asian architecture. His Beo Collection was also developed from this concept.

In 2001, Kenkoon has broken into the world of design area. His ideas were popular in both Europe and Asia. In the following years, Kenkoon has won the following awards :

- Design Excellence Awards (Furniture) 2003-2004 from Elle Decoration Magazine.
- Design Excellence Awards (Furniture) 2004-2005 from Elle Decoration Magazine.
- Design Excellence Awards (Bathroom) 2004-2005 from Elle Decoration Magazine.
- Design Excellence Awards (Young Talent) 2004-2005 from Elle Decoration Magazine.
- Outstanding Outdoor furniture Awards 2006 from DEP (Department of Export Promotion)
- Best Outdoor Accessories Design Award from International Casual Furniture Fair 2006 (Chicago USA)
- Best Designer Award In Furniture Design by Silpakorn University 2007

- Design Excellence Awards (DEmark) 2011, 2014, 2016 from Department of International Trade Promotion (Thailand)
- Good Design Awards (G-mark) 2011, 2016 from Japan Institute of Design Promotion
- Design for Asia Award (DFA) 2009 from Hong Kong Design Center

Kenkoon furniture blends the Asian contemporary design concept with organic form by using natural and synthetic material. Its main features are golden teak, Textilene mesh, Acrylic, Sunbrella fabric and Stainless steel, so they are suitable for both indoor and outdoor use.

Capsule is the unprecedented concept in outdoor furniture design. Its foremost and distinctive form has revolutionized outdoor furniture industry. Mark's intention was to create an individual piece of outdoor furniture that could stand-alone outside. He told us that he got an inspiration from Koop Lang Chang, founded in Asia. It is a traditional woven, dome-shaped roof, which could open sides. Then, he also applied the function of arbor swing to allow it to swirl all around as well as rotate away from the sun. The futuristic design and function of a Capsule form are also added the concept to create a unique look. Mark strongly believes that his development of this Capsule collection will mark the future of product design.

Mark is currently wearing two hats at Kenkoon. He is both the CEO and Head of Design Division. Mark continually creates new furniture collections. Let's find out more about his views on furniture design nowadays.
